Book _____

Carthage Collegiate Institute.

The first term of the third year of this Institution will open on Wednesday, the 5th of September, 1888, with a full corps of Competent Instructors. Students applying for admission will meet the Faculty in the President's office the day before the term commences. The year will close about June 6th, 1889.

Tuition for the Year, Three Terms, $36.

TUITION and CONTINGENT FEE ($1.00 per Term) Must be paid in Advance.

BOARD.—Good board can be obtained with excellent families at from $2.75 to $3.00 per week.

SOCIETIES.—Two Literary Societies are connected with the Institute, and every student is expected to belong to one or the other of these Societies.

RECESS.—Of about ten days at the Holiday season, and of two or three between the Second and Third terms.

For particulars and catalogues address

The Inter Ocean.

Beneficial to All.

GEORGE F. STONE,
Sec'y's Office, Board of Trade, Chicago.

I am pleased to give my hearty indorsement to so able a newspaper as *The Inter Ocean.* Its news columns reflect the events of the civilized world each day. Its editorials are honest opinions, beneficial alike to the rich and poor. Its commercial news is full and complete. Its literary departments are filled with reading matter suited to every home. Where education thrives best, there this paper will be found.

GEORGE F. STONE, Secretary.

Candid, Dignified, and Safe.

P. BIRD PRICE,
Chief Inspector of Grain for the City of Chicago.

The Inter Ocean as a family paper or as a paper for the office or counting-room can not be much improved upon. It is always clean, bright, and readable, reliable, and trustworthy in its statements, and complete in its reflection of the doings and happenings of the day. Its candid, dignified treatment of current questions makes it a safe organ for the molding as well as the reflection of public opinion, and it fully deserves the large measure of public patronage it has acquired and seems likely to retain.

P. BIRD PRICE.

Honest and Fearless.

H. C. AVERY & CO.,
Commission Merchants,
236 LaSalle Street, Chicago.

We consider *The Inter Ocean* the most honest and fearless paper in Chicago, and more properly a family paper than its comtemporaries, while furnishing equally as much news.

H. C. AVERY & CO.

Best Paper in the United States

JOSEPH B. LEAKE,
Attorney at Law,
Room 24, 94 Washington St. Chicago.

I have been a subscriber and a reader of *The Inter Ocean* from its first appearance, and regard it as the best paper in the United States. I know of no newspaper which, for my purpose, I would exchange for it. It is not only ably edited in its various departments, but I read with entire confidence that it represents the honest convictions of those who write for it.

J. B. LEAKE.

ERRATUM.

After the list of names of the streets of the city had been made out by the City Engineer and printed, the City Council changed the name of Sarcoxie street to Valley. Therefore for Sarcoxie read Valley.

RESIDENCE OF A. W. ST. JOHN.—Corner Macon and Lyon Streets.

PREFACE.

In presenting to the citizens of Carthage our first City Directory, we congratulate them on the apparent prosperity of the city. It will be found from observation that this issue contains some 2730 names. On a basis of three and one-third, we would estimate the population of Carthage about 8,100. Some difficulty to get a complete list of the names has been experienced by boarding and lodging houses not giving in a full list; some probably have been left out in checking off the list in alphabetical order. We have tried to make it as complete and perfect as possible. We tender our thanks to the business and professional men of the city for their liberal patronage.

JASPER COUNTY, MISSOURI.

Jasper County is situated on the southern and western slopes of the Ozark range, at an altitude of about 1200 feet above sea level, with Barton county on the north, Lawrence on the east, Newton on the south and Kansas in the west, and is in area about twenty by thirty-one miles, containing 409,319 acres of as fine land as can be found in the Union for all cereals, garden, orchard or stock growing.

The County was organized Jan. 29th, 1841, and has at present a population of at least 45,000, half of which are inhabitants of the several towns of the County. The County has no bonded indebtedness, and her warrants are at par in every fund. The valuation for 1886 was $9,247,266 upon the basis of one-third of its actual value.

Taxes for all purposes for 1887 were $1.33 per hundred dollars, making, when the low valuation is considered, very low taxes.

The County has 120 school districts, 179 school rooms and a permanent school fund of upwards of $225,000. The County boasts of seventeen flouring mills with a total capacity of 1945 bbls. per day. Nineteen substantial iron bridges span its limpid and clear running rivers and streams. During 1887 the mines of the County produced nearly $2,000,000 worth of zinc and lead, and yet this industry is in its infancy. The orchards produced $400,000 worth of fruit for 1887, giving a stimulus to that industry that will, in a very few years, place this County in the front rank among the fruit growing sections of the union. The high altitude of this section, with the clear, pure water, gives the stranger a double assurance that our boasted climate and health is a reality.

The County has 120 miles of railroad traversing its entire length and breadth, giving splendid and easily accessible markets.

By transfer
JUL 17 1914

CARTHAGE

Is situated upon the south bank of Spring River, in the center of the county, in the midst of a young, growing forest; and was selected by Abel Landers and George Barker, two commissioners appointed by the county court for the purpose of locating the site of the county seat, in the spring of 1842. They engaged the county surveyor, James Nichols, to run the line for them. They started at the half-mile corner, in section 6, township 28, range 30, and ran directly west three miles, and set their stake at the northeast corner of the square in Carthage, at the northwest corner of lot No. 1. From that point they laid off the original town of Carthage, with a public square near the center of the town, and an original plat consisting of 144 lots. It grew gradually in population and wealth up to the beginning of the war; after that and during the war it was entirely deserted and destroyed, there being but three dwelling houses left in it when peace was declared. In July, 1865, the first permanent settlers after the close of the war began to make their appearance, and in May, 1866, the first postmaster was appointed; and during that year immigration began to pour into the town and county from every direction.

The first authorized formation of the city government was under a board of trustees, authorized under the general enactments of the state in such cases, first incorporated by an order of the county court, under petition of M. G. McGregor and two hundred other citizens, March 12th, 1868. The first act of incorporation was passed March 15th, 1873, amended in 1874 and again in 1875. This comprised what is now known as the original town.

The city outgrew this infancy, and was granted a special charter, which was enacted March 15th, 1873, and provided that the city council consist of a mayor and not less than four councilmen. The permanent officers provided for were a mayor, city council, clerk, recorder, marshal, treasurer and city attorney.

Under this charter, the first mayor was elected in the spring of 1873, and after a service of six months, resigned.

Names and time of service, from organization to present date, of the several mayors.

Peter Hill, 1873, resigned.

Timothy Regan, unexpired term of Hill, and from 1874 to '75.

H. H. Harding, 1875 to '76.
Josiah Lane, 1876 to '77.
J. T. Ruffin, 1877 to '79.
Geo. Rader, 1879 to '80.
A. H. Caffee, 1880 to '82.
E. W. Harper, 1882 to '83.
T. T. Luscomb, 1883 to '84.
J. L. Moore, 1884 to '85.
Eugene O'Keefe, 1885 to '86.
J. W. Sennet, 1886 to '88.

That some idea may be formed of the enterprise and thrift that has permeated our city, we mention the following matters in this connection: Our city is provided with a complete system of water works with no less than nine miles of mains in the city. The supply of water is from Spring River, which never fails to furnish an abundance of pure water. The Holly system is used, with direct pressure, with a capacity of 62,500 gallons per hour, with fire plugs distributed so as to afford ample fire protection. Our fire department is well equipped with three good companies. We have a complete system of gas works with mains through the city that furnish an excellent quality of gas at reasonable prices.

The city stands to-day without a rival in the state, for location, development and refinement, and its ten thousand people, full of energy and enterprise, are ready and willing to lend a helping hand to whatever tends to develop or beautify their adopted town, which is acknowledged the Queen City of the Southwest.

Railroads.—The main line of the St. Louis & San Francisco railroad, and the southern branch of the Missouri Pacific system pass through our city, with an immediate prospect of the completion of three other lines at an early date.

Street Railroads.—The city is provided with a street

railroad track of some two and a half or three miles, and soon to be extended for the further accommodation of the public.

TELEPHONE EXCHANGE —Our system of telephone connections is complete and extensive, connecting us, as it does, with Joplin, Webb City, Carterville, Oronogo. and with Columbus and Galena, Kansas, and a number of other towns.

ELECTRIC LIGHT.—Established in 1885, the Sperry system being used.

CITY HALL.—We have a neat, well-arranged City Hall, constructed of stone and brick, two full stories high, with cupola on top, in which is swung a large fire bell, connected with the fire alarms from different parts of the city and with the engine rooms of the water-works company. In this building the city offices are located, as are also the equipments of the fire department.

PUBLIC SCHOOLS.—Every citizen of Carthage has a special pride and interest in their public school system, growing, as it has, from the school of 1867, presided over by two teachers, up to its present magnificent proportions. As early as 1870 the people of this city determined to make their public schools a special and attractive feature of this place, regardless of costs. Hence it was that in that year they voted bonds for the purpose of erecting a large and commodious school building. With the money realized from these bonds there was constructed an elegant brick building, three stories high with eleven comfortable rooms, all furnished with the latest and best furniture and apparatus, at a cost of at least $45,000. This was a great undertaking at that time, with such limited taxable wealth and so few to share the burdens. The taxes at that time for school purposes alone were $2 on the $100 valuation. There are none, however, who shared those burdens that can look back with regret upon the investment thus made. These bonds have been paid, except the sum of $5,000, leaving a surplus in th treasury at the present time of $5,000, in the teachers' and building fund. We now have, in addition to the above mentioned building, three substantial brick buildings of four rooms each, located in different parts of the city, convenient for primary scholars. The larger building is now used for the Grammar and High School grades only. In addition to this, we have a substantial one-story brick building for the colored children of the city. It consists of two large and well furnished rooms. The three primary school buildings and the colored school

building have all been erected within the past five years, at a cost of about $21,000 and they are all paid for. We now employ twenty-four teachers for the white children, two for the colored children, and a superintendent for all the schools, making a total engagement of twenty-seven teachers. The pay roll for the present year will be nearly $12,000, for teachers' wages alone. There has been a gradual reduction of the high school taxes of the past until it is now only 70 cents on the $100 valuation. The school term is for nine months of the year.

The number of white children enumerated June 20, 1887, of school age in the city, was 1,873; the number of colored children of same age at that time, 165, making a total of 2,038.

The curriculum of study is well arranged and adapted to the different departments, extended in the High School to an advanced and comprehensive course calculated to prepare those who complete it for any station of life. Our schools, besides being well supplied with the latest and most approved apparatus, including chemical and philosophical appliances, have also a well selected Library for the use of the teachers and the scholars of the Grammar and High School grades. There were read by the teachers and pupils during the past year 2,800 books, showing that their Library is duly appreciated.

There are in addition to our public schools two private schools which have a good attendance, one of them enrolling upwards of one hundred scholars per year; also a commercial school receiving a good patronage and giving general satisfaction.

CARTHAGE COLLEGIATE INSTITUTE.—This institution of learning has just been completed. It is an elegant structure of brick and stone of modern architecture, with special reference to the use to which it is applied, and is located near the center of a spacious campus in the southern part of the city. This college was built by the enterprise and liberality of our citizens, and placed under the auspices of the Presbyterian church, which has charge of it, though in no sense of the word is it to be used or conducted as a sectarian school.

CHURCHES.—Our city is well supplied with churches, having the following organizations and buildings, to-wit: The Methodist, a large and commodious brick; the South Methodist, a brick structure of modern architecture; the Presbyterian, a handsome frame building; the Baptist, also a frame structure, of two large

rooms; the Christian church, a large and comfortable brick, with stone basement story; the Congregational church, of the most modern and approved architecture, built of brick and stone. The Episcopal, Catholic and Lutheran all have frame buildings, with good accommodations. Besides these there are two colored churches, representing the Methodist and Baptist denominations, giving us eleven church buildings in all.

CIVIL ORDERS.—The Masons, Odd Fellows, Knights of Pythias, Ancient Order of United Workmen, the Grand Army of the Republic, Knights and Ladies of Honor, Knights of the Golden Eagle, Ladies' Relief Corps, Camp of Sons of Veterans all have good working lodges.

NEWSPAPERS.—There are two daily, and three weekly newspapers in the city, and also a monthly journal.

BANKS AND HOTELS.—We have four substantial Banks, and a number of well conducted Hotels.

MERCANTILE PURSUITS.—All lines of this branch of business are well represented through the various merchants of our city.

MANUFACTURING INTERESTS.—That some idea may be formed of the resources of our county, and the scope and extent of our business generally, we give a few statistics of some of the more prominent manufacturing interests of the city:

CARRIAGE WORKS.—We have five wagon and carriage factories, each well equipped for the manufacturing of all kinds of heavy and light running vehicles. These five employ 39 hands, with a pay roll of $450 per week.

PLOW FACTORY.—We have one Plow Factory, which manufactures all kinds of steel walking plows on a limited scale; employs six hands, with a pay roll of $75 per week.

CORN MILL.—We have a Corn Mill which makes a specialty of manufacturing hominy, grits, meal and feed. Its goods are shipped to Arkansas, Louisiana, Texas and the West. Has a capacity of 400 bushels per day; employs eight hands, with a pay roll of $65 per week.

CANNING FACTORY AND FRUIT EVAPORATOR.—We have a fruit evaporator that employs a large number of hands during the season, and consumes from six to seven hundred bushels of apples per day. The citizens have contracted with eastern parties for the establishment of an extensive canning factory with a

capacity of 12,000 to 15,000 cans daily. The plant to cost $20,000 and give employment to 250 hands during the canning season. This will be established in time for this year's crop of vegetables and fruit.

BRICK.—We have the largest Brick Yards in Southwest Missouri, and the brick manufactured are of a very superior grade, having the preference over all other brick for a long distance around Carthage. There were shipped from these yards during the past year 150 car loads to distant points, including Wichita, Halstead and Altamont, Kansas. All machinery in these yards is run by steam. They have a capacity of 50,000 brick per day; employ fifty hands, with a pay roll of $400 per week.

WOOLEN MILLS.—Carthage has two Woolen Mills, one of them being next to the largest mill in the State. The two mills have a combined power of eighty-four looms, with a capacity of 56,500 yards of cloth per month. They employ 90 hands, with a pay roll of $700 per week.

FOUNDRY AND MACHINE SHOP.—We have an extensive Foundry, which does a large business in the way of manufacturing mining machinery, of which a specialty is made. Their goods are sold as far west as Arizona, New Mexico and Nevada. They have a slpendid local trade, reaching half way to St. Louis on the east. Employ 35 hands, with a pay roll of $400 per week.

BOILER WORKS.—There is located here a Steam Boiler Factory, which gives employment to nine hands, with a pay roll of $93 per week.

FLOUR MILLS.—The large quantity and superior quality of wheat produced in our county has developed Carthage into an extensive flour manufacturing point, as is briefly shown by the following statistics: There are five Flouring Mills in the city—three run by water power and two by steam power. They have a combined capacity of 875 barrels per day; employ 73 hands, with a pay roll of $825 per week. In addition to this, we may add that, including the above mills, there are seventeen flouring mills in the county, with a combined capacity of 1,700 barrels per day, making Carthage and Jasper County the largest flour producing point west of the Mississippi except St. Louis and Minneapolis.

LIME AND STONE.—There is in Carthage and vicinity the fin-

est Lime Stone known to the architect and builder. It is durable, easily worked, and of such fine texture that it will polish equal to the finest marble. It is being used for monuments, and is extensively used for building purposes for hundreds of miles around Carthage, including St. Louis, Kansas City and Wichita. The lime produced from this rock is of superior quality, and is marketed in Arkansas, Texas, Colorado, Kansas and Nebraska. There are in the city three extensive lime works, with a combined capacity of 800 barrels per day. Employ 100 hands, with a pay roll of $900 per week. At one of these lime works a specialty is made of dimension stone. Blocks of stone weighing from thirty to forty tons each are sawed by steam power direct from the quarry, and are thence transferred to sawing rooms, where two sets of gang saws are run, and these immense blocks of stone are cut into any required dimension. Another company has been organized with large capital, that will establish a plant this season of even more extensive machinery and capacity than the former.

PRINTING ESTABLISHMENTS.—The Newspaper and Job Printing Houses of the city give employment to 42 hands, with a pay roll of $350 a week.

By the foregoing it will be seen that there are employed in the manufacturing establishments of Carthage 441 hands, with a pay roll of $4,063 per week. This is a respectable showing considering the age of our city and the infancy of our industries, and yet it will be observed that some of the more important lines are represented upon a very limited scale, while there are a number of industries not represented at all, by which it is shown that we have an inviting field for capital and labor in this direction.

In addition to what has been said of Carthage we may add that there are two public and several private parks. The surface of the city is gently undulating, thus giving it fine natural drainage. Its streets are of the finest natural McAdam, never getting muddy, and studded on either side by splendid forest trees in many instances overreaching the streets, thus forming great archways leading through a forest of homes surrounded by the ornaments of nature and art.

STREETS AND AVENUES

OF CARTHAGE, MO.

The city is divided on Main street, which runs along the west side of the square, into east and west Carthage, and into north and south Carthage by Central avenue.

Blanch, eighth street west of Main, extends from Central avenue to Olive.

Budlong, eleventh street south of Central avenue, extends from Orchard street east to River street.

Bois d'Arc, eighth street east of Main, from Central avenue to Fifth street.

Boulevard, west, extends north and south through the Carthage land and mining sub-division.

Case, eighth street west from Main, extends from Olive street south to Cedar street.

Cedar, eighth street south from Central avenue, extends from Garrison avenue west to Francis street.

Centennial avenue, fourteenth street south from Central avenue, extends from Main street east to Grand avenue and west to city limits.

Central avenue, (base line,) extends from Main street east to Jackson street and from Main street west to Parsons street.

Charles street, thirteenth street south from Central avenue, extends from Main street east to Grand avenue.

Chestnut street and avenue east, eighth street south from Central avenue, extends from Main street east to River street.

Chestnut street west, extends from Main street west to Francis street.

Clevenger street, fifteenth street south from Central avenue, extends from Garrison avenue west through Thacker's 4th addition.

Clinton street, fifth street east from Main street, extends from Central avenue south to Thirteenth street.

Cooper street, fourteenth street south from Central avenue, extends from Garrison avenue west through Thacker s 4th addition.

Eldorado street, fourth street north from Central avenue, extends from Main street west to Parsons street.

Eleventh street east, eleventh south from Central avenue, extends from Main street east to Grant street.

Eleventh street west, extends from Main street west to Garrison avenue.

Elm street, third street east from Main, extends from Central avenue north to Eldorado street.

Fall street, seventh street west from Main, extends from Oak street south to Walnut street.

Fifth street east, fifth street south from Central avenue, extends from Main street east to River street.

Fifth street west, extends from Main street west to Garrison avenue.

Forest street, sixth street west from Main, extends from Miller street south to Centennial avenue.

Fourth street east, fourth street south from Central avenue, extends from Main street east to Fulton.

Fourth street west, extends from Main street west to Garrison avenue.

Fulton street and avenue, sixth street east from Main, extends from Central avenue south to southern limits of Cloud's addition.

Fulton street north, extends from Central avenue north into college hill addition.

Francis street, tenth street west from Main, extends from Olive street south to Cedar street.

Garrison avenue south, fourth street west from Main, extends from Central avenue south to city limits.

Garrison avenue north, extends from Central avenue north to Spring river.

Grand avenue, second street east from Main, extends from intersection of Howard avenue south to city limits.

Grant street, second street east from Main, extends from Central avenue south to Grand avenue.

Griswold avenue, extends east and west through the Carthage Land and Mining Co.'s sub-division.

Harrington avenue, extends north and south through the Carthage Land and Mining Co.'s subdivision.

High street, sixth street north from Central avenue, extends from Main street west to Parsons street.

Highland avenue, extends east and west from Grand avenue, south of Green's, Damon's, Mitchell's and Jackson's addition.

Howard street and avenue, third street east from Main, extends from Central avenue south and intersects Grand avenue south of Tenth street.

Jackson street, seventh street east from Main, extends from Central avenue north to Spring river.

James street, fifth street east from Main, extends from Budlong street south to Thirteenth street.
